Summary

Software Engineer with 7+ years of experience in front-end and back-end development, including multiple remote projects in the UK, Malaysia, and Nepal. Proven leadership skills with 3+ years of experience managing and leading project teams.

TECHNICAL SKILLS

Languages: C#, JavaScript, Typescript, HTML, CSS, SQL

Frameworks: ASP.Net, .Net Core, React, Angular, Blazor, jQuery, Jasmine, JUnit, Xunit, Bootstrap Web Technologies: AJAX, Kibana, Kafka, Elasticsearch, Logstash, Azure AD, RxJs, Redux, NgRx Developer Tools: Docker, Azure DevOps, GitLab CI/CD, GitHub Actions, SourceTree, TFS Database, ORM: SQL Server, MySQL, Oracle, PostgreSQL, LINQ, Entity Framework, Dapper

Professional Experience

Senior Software Engineer

 $Oct\ 2023 - Feb\ 2025$

Schoolgrid Ltd

Remote, Edinburgh, Scotland

- Developed a full-stack Kitchen ERP System using .NET, Angular and MySQL to streamline kitchen operations across schools.
- Engineered features across Stock, Menu, and Inventory modules to streamline kitchen logistics and warehousing.
- Led a distributed development team by mentoring junior developers, analyzing team velocity, and setting sprint goals to improve delivery consistency.
- Improved Angular component rendering speed by 30% through implementation of OnPush change detection strategy and optimized list rendering using trackBy in *ngFor.
- Applied SOLID principles and design patterns to develop maintainable, scalable, and testable modules across the application.

Senior Software Engineer

May 2019 - Oct 2023

Axiata Digital Labs

Colombo, Sri Lanka

- Led the development of Pulse BackOffice for Celcom Malaysia, architected full stack web applications using .NET, Angular, and PostgreSQL to support customer operations and internal analytics.
- Integrated *Azure Active Directory* for authentication and secured API access with *JWT* based authorization and Angular route guards.
- Enhanced application security by integrating One-Time Password (OTP) verification to support multi-factor authentication.
- Collaborated with cross-functional teams and stakeholders to gather business requirements and translate them into scalable software solutions.
- Optimized Angular application performance through lazy loading, improving initial load time and backend query indexing improving response times.
- Implemented NgRx state management to streamline complex transaction workflows, reducing API calls by 25%.
- Recognized with the "Scope-Based Project of the Year (Large)" award at the 2022 ADL Global Awards for contributions to the Pulse BO platform.
- Contributed to enterprise-grade .NET solutions including the Distribution Management System for Dialog Sri Lanka and Ncell Nepal.

Software Engineer

June 2017 - May 2019

 $Scienter\ Technologies$

Colombo, Sri Lanka

EDUCATION

General Sir John Kotelawala Defense University

Colombo, Sri Lanka

Honors Bachelor of Science, Information Technology.

2018

• Second Class Upper
